

CORPORATE SOCIAL RESPONSIBILITY POLICY

Our Company's CSR policy has been formulated by the Corporate Social Responsibility Committee (CSR Committee) and adopted by the Board of Directors. The CSR initiatives are focused on empowering communities by educating and giving them means of livelihood and feeling of self-respect.

Our initiatives and outreach activities are aligned by way of doing things for the community. An important component of SRMB's outreach program is training and providing health opportunities, supporting educational needs reaching out to the underprivileged segments of society and using our core capabilities wherever possible.
